EDUCATION

New York University, Tandon School of Engineering

Sep 2023 – May 2025

M.S. in Computer Science, recipient of a prestigious, merit-based scholarship of \$6,000/year.

New York University Sep 2019 – May 2023

B.S. in Data Science, with a minor in Computer Science.

- GPA: 3.91/4.0 cumulative; 3.96/4.0 Data Science major.
- Honors & awards: Magna cum Laude; NYU Honors Scholar.
- Computer vision researcher focusing on semantic segmentation in few-shot learning scenarios.

<u>Relevant courses</u> (B.S. and M.S.): *Applied Internet Technologies* (full-stack dev), *Data Structures*, *Databases*, *Computer Architecture*, *Algorithms*, *Software Engineering* (agile dev), *Intro to Java*.

SKILLS

- Lingual: working proficiency in English, familiar with common technical terms in programming.
- Programming: Proficient in JavaScript, Python, and Java, familiar with Bash.
- Development: Familiar with Git VCS, ReactJS, VueJS, Django, Spring Boot, Agile development (scrum), CI/CD (Travis CI).

PROFESSIONAL EXPERIENCE

<u>eBay Inc.</u>, Software Engineering Intern at Infrastructure Engineering Team

Sep 2022 – Aug 2023

Drove innovative project initiatives, modernized UIs, automated tasks for infrastructure engineering.

• Average-Time-to-Business (ATB) Dashboard

- o Conceptualized and proposed a web-based ATB dashboard for real-time monitoring of clusters and ongoing change requests (CRs), enabling efficient tracking of past issues and team performance.
- o Spearheaded the development of the ATB dashboard as a Redux-powered ReactJS application.
- o Benefited over 100 infrastructure engineers by significantly reducing incident response time, streamlining rollout processes, and improving operational efficiency.

• KeyHub (Community's Email UI for Encrypted Password Exchange)

- o Led the migration of eBay's KeyHub UI from Vue to React to align with the company's tech stack.
- o Upgraded KeyHub's encryption library to conform with the latest OpenPGP standard, fortifying security for password exchange across eBay's infrastructure team.
- o Integrated KeyHub into eBay's cloud console UI using JS-Plugin, promoting cohesive user experiences.

• L7 Rule Configuration UI

- o Orchestrated an intuitive UI for automating L7 rule configuration for eBay's cloud platform, reducing configuration time by more than 70%.
- o Engineered real-time form validation via API calls and a seamless form auto-filling mechanism.

Kaizntree Co., Co-founder, and Full-stack Engineer

Sep 2021 – Sep 2022 & Sep 2023 - Present

Co-founded a powerful one-stop management platform for small businesses.

• Kaizntree Small Business Management Platform

- o Built a comprehensive management platform powered by VueJS, Django, and PostgreSQL for 40+ small businesses, seamlessly integrating with major sales channels like Shopify and Square.
- o Combined Django's backend wizardry with agile development (scrum) and CI/CD, allowing Kaizntree to meet customers' ever-changing demands and be customer centric.

• NYU Summer Launchpad

- Stood out in the prestigious 2023 NYU Summer Launchpad program, a testament to our team's dedication and strong technical foundation.
- o Secured a \$10,000 non-dilutive funding and \$15,000 in AWS credits.

Expsoft Ltd., Software Engineering Intern

May 2021 – Sep 2021

Expsoft Auditing Platform

- o Leveraged the power of Springboot and Maven to build resilient and user-friendly auditing platforms for governments and civil construction companies.
- o Recognized for securing a high-value project worth \$250,000, showcasing the value of the software.

RESEARCH EXPERIENCE

<u>Few-shot Segmentation with Adaptive Data Augmentation and Cross Attention</u> Mar 2022 to May 2023 Research Assistant mentored by <u>Professor Li Guo</u>. Co-authored a paper and submitted to **CVPR 2023**.

- Proposed instance-aware data augmentation and a 4-D consensus-based cross attention module to diversify support images and enhance generalization performance.
- Utilized PyTorch, OpenCV, and bash script to build a scalable codebase for few-shot learning on Linux high-performance computing clusters.
