I'm delighted to introduce Xiaochen, a talented software engineer with a solid background in web development and programming.

Xiaochen, who earned a B.S. in Data Science and Computer Science from NYU Shanghai, is now advancing his expertise with an M.S. in Computer Science at NYU Tandon. His skills in full-stack development, particularly in React, Django, PostgreSQL, and CI/CD, are a perfect match for Apple's requirements. During his time as a Software Engineering Intern at eBay, Xiaochen impressively showcased his web development and problem-solving abilities, demonstrating his capability to be an effective team member. His fluency in both Mandarin and English, coupled with strong interpersonal skills, makes him a standout candidate for Apple's diverse and innovative environment.

Overall, Xiaochen's extensive knowledge in web development makes him an exemplary candidate for a role at Apple.
