I am writing to express my deep passion and enthusiasm for serving our school community and contributing to the betterment of the NYU campus. As a dedicated and highly motivated student pursuing a Master's degree in Computer Science at NYU, I am eager to utilize my skills and experiences to make a positive impact on campus life.

Throughout my academic journey at NYU, I have not only focused on excelling in my coursework but also actively engaged in on-campus activities and volunteer work. I firmly believe that a thriving academic community is built upon the collective efforts of its members, and I am committed to playing an active role in creating a vibrant and inclusive campus environment for all students.

My experiences as a Chinese Admissions Ambassador at NYU Shanghai have allowed me to interact with prospective students and their parents, sharing valuable information about admissions events and providing guidance during the application process. I take great pride in representing NYU and showcasing the unique opportunities it offers. Through campus tours and information sessions, I have had the privilege of introducing potential students to the rich academic and cultural experiences NYU has to offer.

As a Resident Assistant at NYU Shanghai's Office of Residential Life, I have been entrusted with the responsibility of fostering a safe and inclusive community for students. I have actively collaborated with different departments and fellow Resident Assistants to organize meaningful on-campus events that promote student engagement and well-being. By addressing residence hall issues, assessing and escalating crisis situations, and maintaining open lines of communication, I have strived to create an environment where students feel supported and empowered to succeed.

Beyond my on-campus involvements, I have also sought opportunities to make a positive impact beyond the university. As an English Teacher at Steppingstones Shanghai, I worked with elementary-level children of migrant workers, promoting education equality and empowering young minds. This experience reinforced my commitment to education and community engagement, and I carry these values with me in all aspects of my life.

My dedication to serving our school community extends to my professional endeavors as well. As a Co-founder and Full-stack Engineer at Kaizntree Co., I have been actively involved in building a powerful one-stop management platform for small businesses. This experience has taught me the importance of collaboration, innovation, and customer-centric problem-solving. By leveraging my technical skills and entrepreneurial mindset, I have strived to create solutions that positively impact the small business community and contribute to their growth and success.

I firmly believe that my passion for service, combined with my academic excellence, technical proficiency, and practical experience, make me an ideal candidate to contribute to the betterment of the

NYU campus. I am dedicated to fostering a supportive and inclusive environment where students can thrive academically, professionally, and personally.

Thank you for considering my application. I have attached my resume for your review, and I would welcome the opportunity to discuss my qualifications further. I am available for an interview at your convenience and can be reached at xl3139@nyu.edu.

Sincerely,
Xiaochen
